

Environmental Science and Management, Master Studies Programme, 2026

Institution		Department/Laboratory	Themes
VU Life Sciences Center	Institute of Biosciences	Center for Ecology and Environmental Research	Toxicity Studies of Ibuprofen and Its Photodegradation Products Using Bacterial Bioluminescence Assays
			The Impact of Different Agricultural Practices on Soil Quality Indicators
			Toxicity Assessment of Surface Water at Wastewater Discharge Sites in the Neris River Using <i>Aliivibrio fischeri</i> Bioluminescence Test and Model Plant Germination Assay
			Allelopathic Effects of Sosnowsky's Hogweed (<i>Heracleum sosnowskyi</i>) on Model and Invasive Plant Species
			Game Mammals' Abundance and Landscape Structure Interrelations in Lithuania
			Assessment of the Carbon Footprint of Vilnius University and Analysis of Opportunities for Its Reduction
			The Impact of Road Salting on The Roadside Soil Condition With Diferent Levels of Maintenance
State Scientific Research Institute Nature Research Centre		Laboratory of Algology and Microorganism Ecology	Responses of Native and Alien Cyanobacteria to Temperature Changes Under Climate Change Conditions
