

Biophysics, Master Studies Programme, 2022

Institution		Department/Laboratory	Themes
VU Life Sciences Center	Institute of Biosciences	Department of Neurobiology and Biophysics	Recovery from Depolarization of Action Potential Threshold in Spinal Motoneurons during Neural Network Activity
Center for Physical Sciences and Technology	Department of Molecular Compound Physics	Biophysical Research Laboratory	Concentration Quenching in Solutions and Thin Films of Chlorophyll and Zinc Phthalocyanine
	Department of Organic Chemistry	Laboratory of Spectroelectrochemistry	Modification and Application of Silver Nanoparticles
